

R&D, Marketing and Strategy Consultant in Life Sciences

Job reference: consult-AgBe
No closing date for applications
Start date: open

Position type: permanent; position with 0 to 5 years of experience

Company details

Alcimed is an independent European business consulting company specialized in life sciences and chemistry/materials/energy. We assist managers in their positioning and development strategies, help them grasp opportunities and adapt to threats. The scope of our advisory business encompasses marketing, strategy, and R&D at the interface between science and business.

With a 20 % growth a year over the ten past years and 160 employees based in France (Paris, Lyon, and Toulouse), Germany (Cologne), Switzerland (Lausanne) and Spain (Madrid), we expand now our activities to the Benelux countries and would like to open an office in Brussels. Our challenge is to develop a highly skilled European team to establish itself in each European country and to offer "consulting with a European face".

Job description:

Today we want to recruit **R&D, Marketing and Strategy Consultants** in Life Sciences in order to assist our clients in Europe and especially in the Benelux countries.

We seek high potentials with highly developed analysis and communication abilities. Your mission will be to help managers within international groups make strategic and marketing choices in Life Sciences. The goal is to build up recommendations anchored in the field reality to help our clients develop and secure their businesses. If you want to take part in the adventure of creating our office in Brussels and quickly have responsibilities, come and join us now!

Qualifications:

- graduate degree or postgraduate degree (MSc or PhD) in life sciences, biomedical sciences or business management

Profile:

- passion about science, marketing and innovation
- highly developed relational abilities
- will to take part in the challenge of developing a fast-growing European company
- experience: 0-5 years
- international experiences will be appreciated

Personal attributes:

Motivation, entrepreneurship, strong interpersonal skills, ambition

Languages:

- Fluent written and spoken English
- Good knowledge in Dutch
- Basic knowledge in French

Mobility:

- start in Paris and switch to the Brussels-based office when it is open
